

# UK Kidney Research Consortium

## Clinical Study Groups – Vacancies for Chair

Following agreement at the last UK Kidney Research Consortium meeting, the terms of reference were agreed to include a tenure of three years for Clinical Study Group (CSG) Chairs, therefore two opportunities are now open for the position of Chair, in a voluntary capacity, for both the Acute Kidney Injury CSG and the Exercise and Lifestyle CSG.

Each individual will be responsible for leading dynamic and responsive groups of clinicians, allied healthcare professionals and scientists from across the UK, all of whom are actively involved in research. The CSGs are tasked with developing new research ideas and working these into high quality funding applications, leveraging a range of expertise from within the CSG and from the networks that support multicentre collaboration. Each chair will be responsible for:

- leading the relevant group
- organising meetings (with support from Kidney Research UK)
- encouraging new members (from all relevant specialties, trainees and PPI members)
- encouraging trainee engagement and development
- publicising the work of the CSG
- reporting to the UK Kidney Research Consortium.

Applicants should send a CV and covering letter to [UKKRC@kidneyresearchuk.org](mailto:UKKRC@kidneyresearchuk.org). The closing date is 13 September 2019.
